WHO WE ARE

Nuway Kitchens Limited was founded in 1967 by Harvey Short Sr. It was a modest start, but the initiative to place the company's direction to build custom made factory cabinetry for renovation and new home construction that was durable, artistic and reasonably priced was the goal of creating a reputable company. The 'new' business was the first of its kind to be established in Newfoundland and Labrador.

With Harvey Sr's persistence and vision, the first plant opened in 1970 with three employees and an order for a bookcase. It wasn't long before demand grew for the unique and exceptional products manufactured by **Nuway's** trades people that created continued growth in the 70's and 80's leading to seven additions to the original plant. Further, it always has been a goal of the management at **Nuway** to acquire the latest technology in both equipment and software to ensure we provide superior results that meet and exceed customer expectations.

In 1989, the continued growth of **Nuway** led to construction of a new state of the art facility, containing corporate offices, a large showroom and manufacturing plant. From this present location, **Nuway** was better equipped to manufacture more efficiently and purchase larger CNC equipment that ensured that **Nuway's** vision of leading edge technology.

In 1990, **Nuway** established a new separate entity, *Horizon Laminates Ltd.* which manufactures mass produced post form counter tops for the Atlantic Canada region. This also enabled **Nuway** to establish an end to end operation to have all of the components of their kitchens 'made right here'.

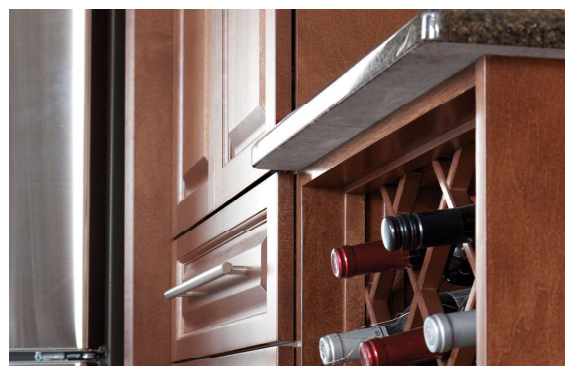

In 2001, an addition to the present facility to expand **Nuway's** cabinet door manufacturing capabilities. **Nuway** has been manufacturing cabinet doors since 1985, one of the only cabinet companies that build their own cabinet doors to establish a full service company.

With further demand for showroom and design facilities a further addition to the present facility was built in 2011 that added a second storey to the building which housed corporate offices that allowed the ability to display further innovative cabinetry.

Whether for a new home or renovation, **Nuway Kitchens** provides a total kitchen package. It's an excellent investment in both the value and enjoyment of your home.

Nuway Kitchens Ltd. distributes throughout Newfoundland and Labrador and Atlantic Canada.

KITCHENS... AND MORE

OUR CABINETRY AND QUALITY CONSTRUCTION EXCEEDS INDUSTRY STANDARDS.

Nuway Kitchens is the only NL-based cabinet manufacturer that has earned and received the distinctive **Canadian Kitchen Cabinet Association (CKCA), Construction and Material Testing Standard Certificate**. This certification process tested a number of cabinets in an independent laboratory to test the durability and strength of our cabinet construction directed by the CKCA.

At **Nuway Kitchens**, we pride ourselves in offering the best cabinet construction available in the industry.

CABINET CONSTRUCTION:

- 5/8" melamine on all cabinet construction
- Interiors available in standard maple woodgrain or white with no upgrade charges
- Adjustable shelves in cabinets
- Exposed wood veneer gables are finished to match door colour

DRAWER CONSTRUCTION

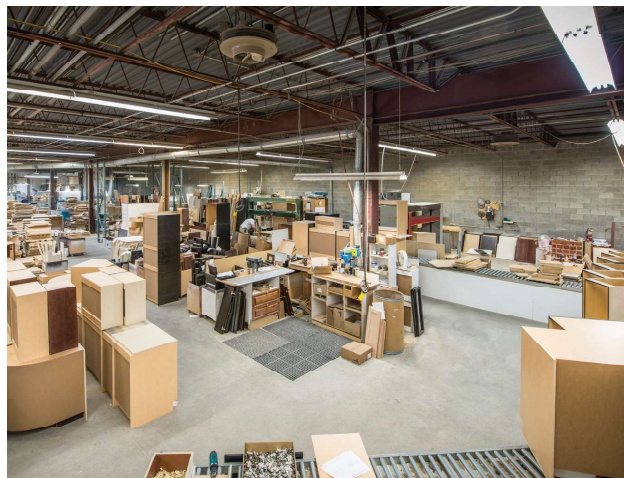

- Standard single wall drawer with enameled steel sides and 5/8" melamine bottom
- Upgrade dovetail drawers available upon request
- Upgrade double wall drawers upon request
- All drawer grades have soft close feature included as a standard feature

CABINET DOOR CONSTRUCTION

- Woods species available are Birch, Maple, Oak and Cherry
- Twenty-two cabinet wooden cabinet doors designs available.
- Five piece construction with floating panel
- Due to seasonal panel shrinkage, Nuway pre-stains inside panel to prevent unsightly unfinished line with this natural process occurs.
- Unique automated machinery is used in the process of wood staining to prevent wood blotching and provide even colouring.
- Various thermo door styles and colours are available
- MDF 'painted' doors in various colours available.

HINGES

- Concealed hinges by Hettich
- Standard 100 degree opening
- All hinges have multi-direction adjustment
- Soft close feature available

CREATED RIGHT HERE - AT HOME

Generations of experience and the latest in computerized equipment ensures the quality and detail of every kitchen is delivered with confidence.
