

## 315 - EDGEPRO+® DELICATE

### Application

- The 315 masking tape provides a combination of premium orange paper with a specially formulated acrylic adhesive, for crisp paint lines. Low tack adhesion with 60 days clean removal.
- Recommended for delicate surfaces, faux-finishes, wallpaper and fresh paint.

### Benefits

- PAINT STOP Technology
- Low tack adhesion
- Premium paper - We're using a specially saturated flat paper that is both denser and thinner than traditional crepe paper. This helps create a barrier against edge bleed.
- Premium adhesive - Our acrylic adhesive includes special additives that help create a barrier to edge bleed.
- Focus on converting - A sharper paint line requires a sharper edge to the tape. We've modified our converting process to ensure we get that extra sharp edge.
