Product Specifications

Great for cleaning and light sanding. The 512E 320-grit abrasive buff is ideal for use on metal, glass, wood, aluminum and plastics – and can easily remove tarnish from brass. Designed for use with the EZ402 EZ Lock Mandrel or Standard 402 Mandrel.

- Compatible with both EZ402 EZ Lock mandrel and standard 402 mandrel
- First patented system of its kind
- Light sanding and tarnish removal - also great for car detailing and restoring door & window hardware
- Compatible with all Dremel rotary tools
