KITCHEN PLANNER

YOUR GUIDE TO A GREAT KITCHEN.

Planning your Project Starts Here

Name: _____

Phone Number: _____

Email: _____

Address: _____

Type of kitchen project:

- ☐ Renovation
- ☐ New Construction
- ☐ Refacing

Please check the following items that apply to your kitchen project:

- ☐ Lighting
- ☐ Countertops
- ☐ Flooring
- ☐ Electrical
- ☐ Backsplash
- ☐ Faucet
- ☐ Cabinetry
- ☐ Hardware
- ☐ Sink
- ☐ Storage
- ☐ Paint
- ☐ Plumbing
- ☐ Other: _____

Investing in your Home

The first step in a kitchen renovation is determining an allowance for your project. Remember to account for additional costs that are typically incurred such as: Plumbing, electrical, new appliances, countertops, flooring, lighting and more.

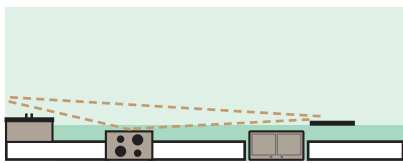

What is your total project allowance?

When would you like your kitchen completed?

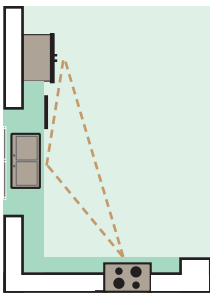

What's your Style?

When planning a Kitchen Renovation, one term you will regularly hear is “The Work Triangle”. This is the area in the Kitchen where you will be spending most of your time. The three points of the triangle are generally represented by your sink, stove/range, and refrigerator. The triangle is not a hard and fast rule, but it is something to keep in mind to help minimize footsteps and make the overall flow work better. A common designer rule of thumb is that the sum of the triangle should not exceed 26 feet.

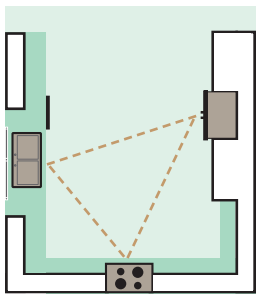

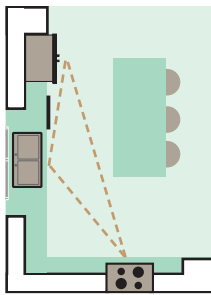

Size & Flow

Linear

L-Shaped (with or without island)

U-Shaped

Important questions to ask yourself and share with your Kitchen Specialist.

Do you plan on moving any of the following items as part of this kitchen renovation?

- ☐ Wall(s)
- ☐ Window(s)
- ☐ Door(s)
- ☐ Outlet(s)
- ☐ Plumbing
- ☐ Appliance(s)

Will you be using:

- ☐ New Appliances
- ☐ Existing Appliances

Please provide your appliance sizes. If you are purchasing new appliances, please provide their model / serial numbers.

Is there a kitchen style that inspires you?

Kitchens can vary from traditional, modern and urban kitchen styles. Let us know what style best suits you.

MODERN

TRADITIONAL

URBAN

Show us your inspiration!

We'll use your vision board and Pinterest photos to influence your new Kitchen.

NOTE: Remodeling can be as simple as a fresh coat of paint or complex as an entire transformation. Careful planning helps you avoid costly setbacks and keep your project on time and on budget.

Measuring your Kitchen

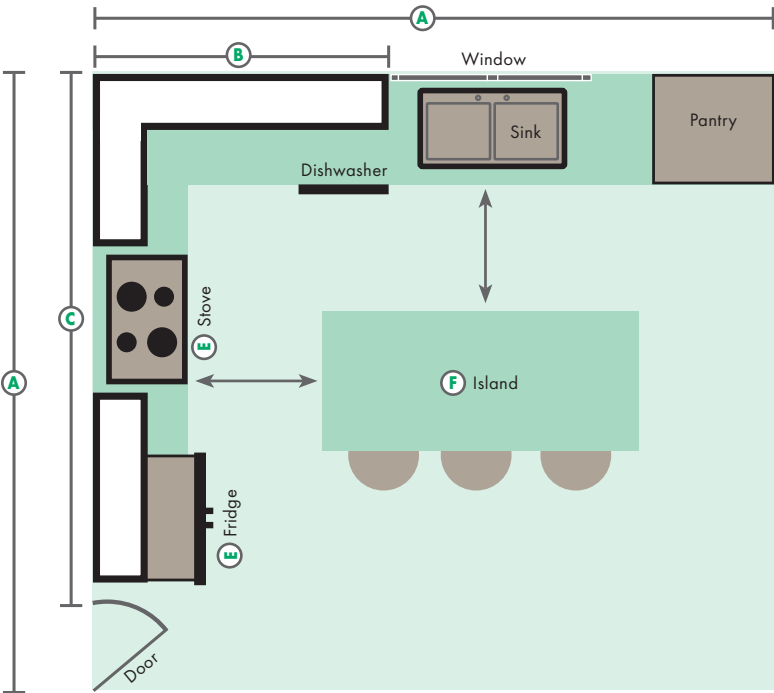

Please provide the dimensions of your space. When you choose KENT to install your kitchen, we will send one of our Installation Specialists to verify all measurements before the cabinets are ordered.

What to Measure:

RECORD ALL MEASUREMENTS IN INCHES.

- A.** Measure the length of each wall.
 - B.** Measure each window's width x height, location from corner, and height above the floor.
 - C.** Measure each door's width x height, location from corner, and direction of opening.
 - D.** Measure the height of the ceiling.
 - E.** Mark the locations and sizes of appliances.
 - F.** Show the size and location of island, if applicable.
- *Include any other objects that will affect your kitchen design such as chimneys, posts, bulkheads, etc.

Section C Measurements:

Section D Measurements:

Section E Measurements:

Section F Measurements:

Draw your Kitchen

Sketch a floor plan of the room.

This image shows a full page of blank graph paper. The grid consists of small, equal-sized squares formed by thin, dark gray lines. The grid covers the entire area of the page, leaving no margins or other markings. There are 20 columns and 20 rows of squares, creating a total of 400 small squares.

My Kitchen Specialist

Phone Number

Email

Our knowledgeable kitchen specialists will guide you through every step of the creative process to help build the kitchen that's right for you. Our professional, local contractors have been carefully selected to ensure that your project is completed to your satisfaction.
